Statement of Facts

1. Applicants filed the instant application on September 23, 2003 with a Specification containing the following first paragraph:

This application claims the benefit of copending US Non-provisional Application No. 10/374,780, filed February 25, 2003; which claims the benefit of US Provisional Application No. 60/336,049, filed November 19, 2001, US Non-provisional Application No. 09/934,455, filed August 22, 2001, which in turn claims priority from US Provisional Application No. 60/227,439, filed August 22, 2000, and US Provisional Application No. 60/310,847, filed August 9, 2001; US Non-provisional Application No. 10/412,699, filed April 10, 2003; which claims the benefit of US Non-provisional Application No. 09/506,720, filed February 17, 2000, which in turn claims the benefit of US Provisional Application No. 60/135,134, filed May 20, 1999, US Non-provisional Application No. 09/533,392, filed March 22, 2000, US Non-provisional Application No. 09/533,029, filed March 22, 2000, US Non-provisional Application No. 09/532,591, filed March 22, 2000, which in turn claimed the benefit of US Provisional Application No. 60/125,814, filed March 23, 1999, US Non-provisional Application No. 09/533,030, filed March 22, 2000, US Non-provisional Application No. 09/713,994, filed November 16, 2000, US Non-provisional Application No. 09/996,140, filed November 26, 2001, US Non-provisional Application No. 09/823,676, filed April 2, 2001; US Non-provisional Application No. 10/421,138, filed April 23, 2003; US Non-provisional Application No. 10/225,068, filed August 9, 2002, copending US Non-provisional Application No. 10/225,066, filed August 9, 2002, copending US Non-provisional Application No. 10/225,067, filed August 9, 2002, filed August 9, 2002, which claim the benefit of US Provisional Application No. 60/338,692, filed December 11, 2001. The entire contents of these applications are hereby incorporated by reference.

2. The Transmittal Letter of September 23, 2003 accompanying the instant application indicated in item 18 that the instant application is a continuation-in-part and referenced an addendum that contained a list of 21 prior applications. This list of prior applications was identical to those presented in the first paragraph of the Specification as filed.

3. The Application Data Sheet of September 23, 2003 accompanying the instant application identified 21 prior applications under the heading titled "Continuity Information." These applications are identical to those presented in the first paragraph on the Specification as filed.
4. Neither the list contained in the Addendum to the Transmittal, the Application Data Sheet, nor the Specification provide the specific relationships between the instant application and prior applications.
5. The direct claim to priority for Application Nos. 09/506,720 and 09/533,392 did not comply with the requirements of 35 U.S.C. § 120 and 37 CFR 1.78(a)(2)(i) in that they were not copending on the date the instant application was filed. However, divisional applications for both of the above applications were copending at the time the instant application was filed, and each divisional application contained a proper claim of benefit to the corresponding parent application. More specifically, Application No. 10/302,267, filed November 22, 2002 contained a proper claim of benefit to parent application 09/506,720; and, Application No. 10/278,173, filed October 21, 2002, claimed a proper claim of benefit to parent Application No. 09/533,392. The instant application now claims the benefit of all of the above-listed applications as priority applications.
6. The direct claims of benefit made to prior provisional Application Nos. 60/310,847, filed August 9, 2001, and 60/336,049, filed November 19, 2001, in the instant application, did not comply with 35 U.S.C. § 119(e) in that the direct claim of benefit was made later than 12 months after the filing date of the prior provisional applications. Claims of benefit to provisional Application Nos. 60/310,847 and 60/336,049 were, however, properly made in Application Nos. 10/225,066, 10/225,067, and 10/225,068, all of which the instant application claims the benefit of as priority applications.
7. The priority claims made to prior Application Nos. 09/934,455, 09/533,029, 09/713,994, 09/823,676, 10/374,780, 10/412,699, 10/225,066, 10/225,067, and 10/225,068 in the Specification and/or the Transmittal Letter/Addendum did not comply with 35 U.S.C. § 120

and 37 CFR 1.78(a)(2)(i) in that they did not state the specific relationship of the applications.

8. The priority claims made to multiple prior applications in a chain of prior applications, both provisional and nonprovisional, in the Specification and/or the Transmittal Letter are not in accordance with MPEP 201.11(C) in that the appropriate specific references were not made for the entire chain of prior applications.
9. To date, the instant application has not been substantively examined by the USPTO.

Therefore, the instant petition is made after the expiration of the period specified in 37 CFR 1.78(a)(2)(ii) or 37 CFR 1.78(a)(5)(ii), with respect to the delayed benefit claims.

The instant petition is accompanied by a Supplemental Application Data Sheet setting forth the reference required by 35 U.S.C. §§ 119(e) or 120 and 37 CFR 1.78(a)(2)(i) or 1.78(a)(5)(i). The instant petition is also accompanied by an Amendment under 37 CFR 1.121 setting forth the reference required by 35 U.S.C. §§ 119(e) or 120 and 37 CFR 1.78(a)(2)(i) or 1.78(a)(5)(i). A Request for Corrected Filing Receipt is also submitted, herewith.

The instant petition is accompanied by the surcharge of \$1,370.00, set forth in 37 CFR 1.17(t).
